# Exchange Students’ Stories at ZISU

“I believe studying in China is a great opportunity for me to improve myself. I have fell in love with Hangzhou culture, food and touristic places, it definitely is one of the most beautiful cities in China. I study in ZISU, which in my opinion is a really good school, full of kind classmates and teachers who are always willing to help you out in case you need to. I’m glad I chose this university’s internship program because I’ve practiced my Chinese and learn so many different things I can apply in my daily life. In conclusion, ZISU is an excellent university for one to come to China to study abroad.”

David Eloy Piñón Serrano - Mexico

“ZISU provides every student the opportunity to receive general education. I want to thank all teachers in ZISU for their teaching and care, which is significant to me in both knowledge level and mental cultivation. Especially, I want to express my deep appreciation to Ms. Liu, who helps me a lot, this teacher helps every student to form good habits, excellent character and self-cultivation. This is the second time for me to study in ZISU. When I first came to China in February 2017, I didn’t know anything about China, Chinese culture and Chinese history. I am now an advanced level Chinese language student in ZISU. After studying for one semester, I made great progress and I have been gaining more and more knowledge. ZISU library is my favorite place. Everyday after class, I do homework or read books in library. If you like reading, you will find the books you want to read in ZISU library.”

Anna Fomina - Russia

“I had exceptionally positive impressions about the city of Hangzhou, Chinese culture and especially the university, in which at the moment I’m doing an internship. I would like to note the high level of education at the university, the teaching methods are accessible and fascinating. Another nice opening for me was the opportunity to practice Chinese with students (host-buddy), which gives me a terrific opportunity to improve my knowledge, communicating and having fun in an interesting company. I would like to highlight a busy extra-curricular activity: every week our teachers organize fascinating events for us, such as joint films, themed entertainments, excursions, moreover, each event is dedicated to a unique event, meetings are held to get acquainted with Chinese culture and cultures of other countries. I find it very exciting and positive that the extra-curricular activities in our university are paid no less than the organization of the educational process itself. I truly enjoy the opportunity to learn Chinese while in this cultural milieu.”

Dave Beck - Uzbekistan

“In 2018, my best thing to do is to be an exchange student at ZISU. In this place, I can learn and feel the cultures of China and all over the world. The curriculum for foreign students is great for learning Chinese and their culture, and all teachers are enthusiastic about their classes and always take care of their students. There are so many programs to communicate with students from all over the world, all of which give them a chance to understand and love China and the world. ZISU always welcomes you. Make unforgettable memories at ZISU.”

Jang Seoyeon - Korea
